

NPIC/O-55-70

27 JUL 1970

MEMORANDUM FOR: Director of Security

ATTENTION : Chief, Clearance Branch, PSD

SUBJECT : Request for Waiver of NP 10-3b (1)(d)

1. This memorandum submits a request, in paragraph 3, for your approval.

2. The National Photographic Interpretation Center (NPIC) has recently reviewed the employment application of a [redacted] who is a graduate in electronic engineering from Pacific States University, is seeking a position as an electronic engineer. He has had good academic preparation, has had wide experience in his field, and has expressed sincere interest in working for the Agency. The officers of NPIC who reviewed his qualifications believe that he has good potential for employment as an electronic engineer, a position for which only the most highly qualified personnel are being sought. Once trained, they envision him as being responsible for performing extensive tests on prototype imagery exploitation equipment for conformance to specifications and for evaluating performance capabilities and characteristics of exploitation equipment by means of engineering tests and analyses.

3. During the review of [redacted] file, it was noted that his wife's step-mother and step-brothers are citizens of Canada. The Canadian citizenship of these relatives requires a waiver to the provision of NP 10-3b (1)(d) to permit [redacted] employment. In view of [redacted] qualifications, it is recommended that such a waiver be approved provided that necessary security reviews are favorable.

ARTHUR C. LUNDQUIST
Director

National Photographic Interpretation Center

APPROVED:

Director of Security

Tate
